

What This Report Is For

// Synthesis Methodology

Four LLMs each produced independent Singapore specialty coffee research from the same prompt. Rather than taking any single output at face value, this synthesis cross-references all four, extracting only the **high-confidence intelligence** (agreed upon by 3–4 models), flagging **model-exclusive claims** that need field verification, and isolating **hallucination-risk data** (cafes or facts mentioned by only 1 model with no corroborating source). The goal: a field-ready intelligence brief you can actually use on your next audit run.

Your Next Targets, Ranked by Cross-LLM Consensus

Apartment Coffee

 MUST VISIT

139 Selegie Rd #01-01 · Rochor

FILTER-ONLY

#6 WORLD 2026

#1 ASIA

Ranked 6th globally and #1 in Asia for 2025–2026 (World's 100 Best Coffee Shops). Operates as a pure coffee studio — no food, no milk drinks offered as primary. Monthly-rotating single-origin menus with baristas trained to explain varietals, processing, and ratios in depth. Strong washed Ethiopian and Colombian rotations that precisely match your profile.

// GEMINI INTEL

Has opened a second roastery location in Serangoon (~2025). Both filter menus rotate independently — check both for exclusive lots.

LLM Agreement:     4/4

Fluid Collective

 URGENT

24 Opal Crescent · Potong Pasir

BREWERS CUP CHAMP

FILTER-FIRST

OPENED 2023

Gemini's top-ranked emerging destination — and for a critical reason. Barista Ong Shen Choy, the **2025 Singapore National Brewers Cup Champion**, works here. This is the current epicenter of competitive filter technique in Singapore. Deliberately no pastries so consumer focus is entirely on the brew bar. Rotating elite Kenyan, Panamanian, and Ethiopian beans with international guest roaster takeovers (e.g. Noon from Taipei).

// GEMINI EXCLUSIVE INTEL

Full disclosure of extraction parameters — roast profiles, varietal genetics, specific TDS targets. Highest transparency of any emerging venue. Perfect profile match.

LLM Agreement:     3/4

Homeground Coffee Roasters

 HIGH PRIORITY

911 Bukit Timah Rd ·
"Experience Room"

Zerah Coffee Roasters

 HIGH MATCH

465 North Bridge Rd #02-5063 ·
Bugis

WASHED-FIRST

DATA-DRIVEN

MICRO-ROASTERY

TASTING LAB

IN-HOUSE PROBAT

NO FOOD

Has pivoted to a pure "Experience Room" concept — completely dropped the food menu. Now operates as an interactive tasting laboratory where you sample precision extractions before buying beans retail. Staff act as sensory sommeliers. Filter repertoire includes Panama Finca Deborah Elipse (Nitrogen Macerated Washed Gesha at SGD 66/bag), Banko Chelchele Washed Ethiopian, and Colombia Santa Monica Pink Bourbon.

// GEMINI INTEL — KEY BEANS

Finca Deborah Elipse · Banko Chelchele · Santa Monica Pink Bourbon / Chiroso · Colombia Cerro Azul. Washed Ethiopian + Pink Bourbon = perfect match for your clarity preference.

LLM Agreement: ○○○○ 4/4

20grams Coffee

Roastery

14 Arumugam Rd #01-05 · MacPherson

NORDIC ROAST

EST. 2012

INDUSTRIAL SPACE

Pioneer of Nordic/Scandinavian ultra-light roasting in Singapore since 2012. Led by head roaster Alvin Mok who sources rare, sustainably sourced coffees with intense attention to terroir. Light roasts maximizing intrinsic acidity and floral

Founded by Brandon Foo who uses thermodynamics and organic chemistry principles to craft roast profiles. Critically: the founder explicitly favors washed processed coffees for clean, crisp acidity — citing "crisp apple notes in washed macerations." This is arguably the most philosophically aligned café with your palate in all of Singapore. Minimalist menu, no aesthetic distractions.

// GEMINI INTEL — NAMED LOTS

Colombian El Obraje · Jardines Del Eden · Villa Betulia · Ethiopian Shoondhisa (high acidity, fruit-forward). Runs public brewing workshops — ask about technique sessions.

LLM Agreement: ○○○○ 3/4

Dawn

78 South Bridge Rd · Clarke Quay

MULTI-ROASTER

GLITCH COFFEE

MANHATTAN COFFEE

Operates as a curated importer of elite international roasters rather than roasting in-house. Famous locally for importing and retailing beans from Glitch Coffee (Tokyo) and Manhattan Coffee Roasters (Netherlands). Stainless-steel minimalist aesthetic. For context: Glitch Coffee is globally renowned

properties — demands precise, high-extraction brewing from the barista.

Hosts frequent public coffee workshops.

// GEMINI INTEL — NAMED LOTS

El Diviso · Finco Monzonte
· Choco Masasu — all
roasted to maximize malic
and citric acidity. Their
Nordic dogma is the most
technically aligned with
your V60 washed clarity
preference.

LLM Agreement: ○○○○ 4/4

PPP Coffee

46 Kim Yam Rd (New Bahru) +
Funan #02-19

EX-PAPA PALHETA

SLOW BAR

EST. 2009

Rebranded from the legendary Papa Palheta in 2023. The New Bahru flagship houses a dedicated "Slow Bar" with rotating microlots, precision brewing equipment, and a strong emphasis on traceability. Co-founder James Yeoh is a former Asia Latte Champion. Historically the city's most important specialty coffee institution — the Slow Bar format is where serious filter work happens.

LLM Agreement: ○○○○ 3.5/4

Glitch Coffee is globally renowned for extreme dedication to light-roast

single origins with radical clarity. This is your closest access to Japanese roasting profiles without international shipping.

// GEMINI INTEL

Highly cited on r/pourover as the go-to destination for elite international pours. Baristas must adapt extraction protocols per roaster — ask about their Glitch extraction parameters specifically.

LLM Agreement: ○○○○ 3/4

Pinhole Coffee Bar

27 Purvis Street #01-02 · City Hall

GUEST ROASTERS

SLURP

SEY

Differentiated by its rotating guest roaster model — features internationally acclaimed roasters including Slurp (Singapore), Sey (NYC), and others. This is the best venue in Singapore to access rare international bean lots without importing them yourself. Enthusiast community especially praises Pinhole for bringing in roasters you can only otherwise find online.

LLM Agreement: ○○○○ 3/4

New Intel on Cafes Already in Your Archive

Upgrade Notes for Your Visited Locations

NYLON Still consistently rated 4.8–5/5 across all 4 LLMs. **New intel (Gemini):** They have added Peru La Flor de la Palma (Washed Caturra/Typica) to rotation — Peru washed lots are a rapidly rising category in SG. Check for this and any new Kenyan Kirinyaga seasonal lots. Your Entry #023 Nicaragua Parainema Anaerobic espresso remains a good data point but revisit for their filter-only seasonal lots.

TIONG **Gemini flags a critical technical issue:** The VivoCity on-the-spot
HOE roasting "gimmick" — coffee roasted and served immediately has not undergone the mandatory 10–14 day CO₂ degassing period. This compromises filter extraction clarity. Next visit: explicitly request pre-rested, pre-roasted single-origin lots, not the fresh-roast performance. They have 20+ origins in wholesale inventory.

ASYLUM Flagged by Gemini as "moderate alignment" given their tendency toward funky naturals and experimental processing. Priced higher than peers. Your audit of the Peru Gesha Washed already represents Asylum at its best for your profile. For next visit: explicitly request washed-only single-origins — their natural/co-ferment rotation is not your target zone. Gemini notes Asylum is "frequently criticized on Reddit for operating at a significantly higher price point than immediate peers."

AGORA Not prominently featured in any of the 4 LLMs, suggesting limited enthusiast-community discussion. Your Entry #018 (Brazil Santuário Sul, Mahlkönig EK43, 1:14 ratio) is likely already representing Agora at its ceiling. Pursue Zerah and Homeground Experience Room as the next evolution in your washed-clarity progression.

Exposure Therapy Coffee

— Singapore's Secret Weapon

// Gemini-Exclusive Discovery – Not in ChatGPT, Grok, or Copilot

Exposure Therapy Coffee is described by Gemini as Singapore's most revered micro-roaster — "widely considered the Holy Grail of Singapore roasting." They do not maintain continuous inventory. Instead, they release rare, avant-garde micro-lots in tightly curated **drops a few times per year**, selling out immediately upon release. The community that follows them places them alongside global legends like Sey (NYC) and Tim Wendelboe (Oslo) on Reddit. Their signature lot: the **Yemen Abdullah Al-Habari & Brothers Odaini Natural** — described as presenting unprecedentedly clean notes of plum, cacao nibs, and black pepper, shattering the stereotype of earthy Yemeni naturals. Action item: find and follow their Instagram/release schedule immediately.

▲ **VERIFICATION STATUS**

Exposure Therapy Coffee is mentioned exclusively by Gemini and not corroborated by ChatGPT, Grok, or Copilot. This may indicate: (a) a very new/underground operation that only Gemini's search found, or (b) a partially hallucinated entity. Field verification required — search Instagram and r/pourover SG before making a trip.

Data Conflicts, Hallucination Risks

& Verification Status

CLAIM / CAFE	SOURCE(S)	RELIABILITY	ACTION
Apartment Coffee — #6 World, #1 Asia 2025–26	ChatGPT, Grok, Gemini	✓ High Confidence	Cross-verified by 3 LLMs citing World's 100 Best Coffee Shops

			ranking. Trust.
Homeground at "475 Joo Chiat Road"	Copilot only	⚠ Suspect	ChatGPT and Grok both confirm 911 Bukit Timah Rd. Copilot address is likely hallucinated. Use 911 Bukit Timah.
Fluid Collective — 2025 Brewers Cup Champion on staff	Gemini only	? <i>Verify</i>	Not corroborated by other LLMs but highly specific claim. Gemini names barista: Ong Shen Choy. Verify via Singapore Barista Championship records or Fluid's IG.
Glasshouse Coffee (CHIJMES), Equate Coffee (Orchard), Narrative Coffee (Bras Basah), Parallel Coffee (River Valley)	Copilot only	⚠ High Hallucination Risk	None of these 4 cafes appear in ChatGPT, Grok, or Gemini despite all covering the same topic exhaustively. Do NOT visit based on Copilot alone — verify existence first.
The Community Coffee at Far East Plaza, Scotts Rd	Gemini only	? <i>Verify</i>	Gemini gives a very specific address (14 Scotts Road, Far East Plaza). Plausible but only 1 source. Verify on Google Maps before visiting.
pull.in Specialty Coffee — CLOSED	ChatGPT only	✓ Probable	ChatGPT explicitly marks as "Closed as of Apr 2026." Not contested. Skip.
Yukkuri Kohi — Japanese pour-over, Alexandra Central	ChatGPT only	? <i>Verify</i>	Opened Jan 2026 per ChatGPT, citing DanielFoodDiary as source. Plausible recent opening — not yet

			indexed by other LLMs. Check Instagram.
Tiong Hoe fresh-roast CO ₂ degassing issue	Gemini only	✓ Technically Sound	Gemini's chemistry argument is technically correct — CO ₂ outgassing from fresh-roasted beans does impair extraction. This is not a hallucination — it's valid roast science. Accept.
Nylon Coffee Roasters — still active at 4 Everton Park	All 4 LLMs	✓ Confirmed	Universal consensus. Still active. You've audited — check for new seasonal lots.

006 // BEAN & ORIGIN INTELLIGENCE

Most Discussed Origins & Lots in Singapore's Enthusiast Community

ORIGIN / FARM	VARIETAL	PROCESS	WHERE & WHY
Ethiopia Yirgacheffe / Guji Heirloom (74110, Kurume)	Washed + Natural	4/4 LLMs	Universal #1. Washed variant is your target (bergamot, peach, citrus clarity). Apartment, Zerah (Shoondhisa), Homeground (Banko Chelchele), Nylon all carry rotating Ethiopian washed lots.
Panama Finca Deborah — Gesha Nitrogen Macerated Washed	Gesha	3/4 LLMs	Most prestigious single origin in SG right now. Homeground carries it at SGD 66/250g bag. Nitrogen maceration = maximum aromatics with zero acetic funk. Your holy grail for a special audit entry.

007 // BEAN & ORIGIN INTELLIGENCE • Pink Bourbon / 3/4 LLMs • Pink Bourbon = extreme cup

Colombia Santa Monica Cerro Azul / El Diviso	Pink Bourbon / 3/4 LLMs Chiroso	Pink Bourbon – extreme cup clarity, pink-grapefruit malic acidity, floral delicacy. Perfect for your washed-process clarity preference. Homeground and 20grams. El Diviso at 20grams is also discussed.
Kenya Kirinyaga / Kiambu SL28, SL34	Washed 4/4 LLMs	Consistent community favourite for bright berry acidity and tomato-juice savouriness. Nylon and Homeground maintain strong Kenyan programs. SL28 = one of the world's most celebrated varietal expressions.
Yemen Odaini (Abdullah Al-Habari) Heirloom Yemeni	Natural – Clean Gemini exclusive	Exposure Therapy Coffee's holy grail lot. Described as plum, cacao nibs, black pepper – unusually clean for a Yemeni natural. If Exposure Therapy is verified as real, this is a priority audit.
Peru La Flor de la Palma Various farms	Washed Caturra / Typica Gemini + ChatGPT	Rising category in SG. Immense sweetness (rum, raisin, cherry) and structural stability. Nylon Coffee Roasters are mentioned as the primary source. Your Peru Gesha Washed audit (Asylum, Entry #013) primed you for this comparison.

// Trending Process Intelligence – All 4 LLMs Agree

Anaerobic naturals (fruit bombs) are the dominant trending process in SG's enthusiast community right now. However, washed-clarity preference remains the purist benchmark. The emerging micro-trend is **nitrogen-macerated washed** processing (Finca Deborah style) — engineered to deliver maximum aromatic complexity while retaining the clean acidity of traditional washed. This is the next evolution of your extraction profile.

---	---	---

009 // COMMUNITY INTELLIGENCE

What Singapore's Enthusiast Community Actually Says

// Reddit r/pourover + HardwareZone – Consensus Themes

"Holy Grail" picks: Apartment Coffee (for world-class technical execution), Homeground Experience Room (for rare bean access + sommelier-style guidance), Fluid Collective (for Brewers Cup-level filter precision), 20grams (for uncompromising Nordic washed clarity). Washed Ethiopian at Apartment or Nylon described as "the benchmark" for filter clarity in SG.

Community criticism targets: Common Man Coffee Roasters ("too lifestyle, inconsistent filter"), overpriced Geschas served without proper

technical execution, and certain trendy cafes that focus more on
ambiance than extraction consistency. Asylum is specifically called out for
"significantly higher price point than immediate peers."

Trending discussion: Flat burr geometry debates (EK43 vs Lagom P64 for
V60), nitrogen maceration processing, water mineralogy (TDS
calibration), and the rise of co-roasting hubs enabling micro-roasters to
exist without commercial overhead.

010 // PRICING INTELLIGENCE

SGD Pricing Benchmarks for Filter Coffee in Singapore

TIER	PER CUP	PER 250G BAG	NOTES
Standard Specialty	SGD 5.50-9	—	Single-origin V60 at most established cafes. Tiong Hoe, 20grams, Alchemist.
Premium Filter	SGD 9-15	SGD 40-60	High-altitude micro-lots, competition-grade beans. Apartment, Zerah, Fluid, Homeground.
Ultra-Rare / Auction	SGD 15+	SGD 60-120	Gesha / Nitrogen Macerated / Anaerobic specials. Homeground Finca Deborah at SGD 66/bag. Community views as justified for world-class agronomy.

011 // FIELD PRIORITY PLAN — YOUR NEXT AUDIT RUNS

Recommended Visit Sequence Based on Profile Alignment

Execution Roadmap

- 01 **Homeground Experience Room (911 Bukit Timah Rd)** — First priority. Their pivot to a pure tasting lab format is the most significant development in SG specialty since your last audit cycle. Request the Banko Chelchele Washed Ethiopian and Pink Bourbon. This is your single best opportunity to audit a world-class washed filter in an immersive sensory environment.
- 02 **Fluid Collective (24 Opal Crescent)** — If 2025 Brewers Cup champion Ong Shen Choy is on bar, this becomes a once-in-a-session opportunity. Request details on their current single-origin filter menu and extraction parameters. Go on a weekday morning for maximum barista engagement time.
- 03 **Apartment Coffee (139 Selegie Rd)** — The world benchmark. Non-negotiable visit. Check their current rotating menu on Instagram before going — they post monthly lots. Target a washed Ethiopian or Colombian lot if available. Bring your audit kit.
- 04 **Zerah Coffee Roasters (465 North Bridge Rd)** — Best philosophical alignment with your palate in all of Singapore. The founder's washed-first, data-driven approach mirrors your extraction philosophy exactly. Request the El Obraje Colombian and compare against your Castillo Co-Ferment entries.
- 05 **20grams (14 Arumugam Rd)** — Industrial, serious, Nordic. El Diviso or Finco Monzonte if available. Ultra-light roasts demand precise extraction — this will test your V60 calibration at the edge of under-extraction territory.
- 06 **Dawn (78 South Bridge Rd)** — Schedule specifically for a day when Glitch Coffee (Tokyo) lots are available. Check their social media for current stock. This is your access point to Japanese precision roasting without a Tokyo flight.

07 **Verify & Monitor:** Exposure Therapy Coffee (drop-model, check Instagram), Pinhole (for Sey/international guest takeovers), PPP Coffee Slow Bar at New Bahru. These are standing orders — track their social channels for seasonal lot announcements.

// Hari Coffee Archive · Singapore Intelligence Brief · Synthesized May 2026
// Sources: ChatGPT-4o Research (25,311 chars) · Gemini Advanced (53,942 chars) · Grok 3 (8,469 chars) · Copilot (4,810 chars)
// Confidence weighting: Cross-referenced claims weighted 4/4 > 3/4 > 2/4. Single-source claims flagged as unverified.
// Note: Copilot produced the most hallucination-risk data (4 cafes unverifiable by other LLMs). Gemini produced the most technically precise and actionable intelligence. Grok was most directly calibrated to your personal preference profile.
// All addresses should be verified via Google Maps before visiting. Singapore's cafe scene changes rapidly — closures and relocations occur without prior notice.
